

Certificate in relation to air transportation by passengers with walking disabilities

We hereby certify that our product UNAwheel Maxi, containing a removable lithium-ion battery, meets the requirements of UN Manual of Tests and Criteria, Part III, subsection 38.3 and therefore is suitable for air transportation by passengers according to IATA DGR Chapter 2.3.2.4.

Battery Description

Nominal Voltage: 36 V

Nominal Capacity: 8 Ah

Nominal Energy: 288 Wh

The nominal energy of the battery is 288 Wh which is below the IATA limit of 300 Wh (per battery).

For transportation:

the battery must be removed and securely packed;

the UNAwheel Maxi must be dropped off at the oversized baggage area;

the battery must be taken into the cabin.

We strongly recommend the Passenger to notify the airline company at least 72 hours before the flight in order to obtain approval.

This certificate does not apply to damaged or defective devices or batteries.

This certificate is valid until 31/12/2028.
